

# OPTICAL ILLUSIONS

Stare at the black lightbulb for at least 30 seconds.

Buy a poster!

Then immediately stare at a white area on the screen or at a sheet of paper. You should see a glowing light bulb!

Three men decided to split the cost of a hotel room. The hotel manager gave them a price of **\$30**.

The men split the bill evenly, each paying \$10, and went to their room. However, the hotel manager realized that it was a Wednesday night, which meant the hotel had a special: rooms were only \$25. He had overcharged them \$5!

He called the bellboy, gave him five one-dollar bills and told him to return it to the men.

When the bellboy explained the situation to the men, they were so pleased at the honesty of the establishment that they promptly tipped the bellboy \$2 of the \$5 he had returned and each kept \$1 for himself.

So each of the three men ended up paying \$9 (their original \$10, minus \$1 back) totalling \$27, plus \$2 for the bellboy makes **\$29**.

**Where did the extra dollar go?**

How many Fs do you see in the text below?

FINISHED FILES ARE THE RE-  
SULT OF YEARS OF SCIENTIF-  
IC STUDY COMBINED WITH THE  
EXPERIENCE OF YEARS.

How many did you count? 3?

Wrong, there were 6. Don't believe it?  
Scroll back up and check. Or scroll down  
for the solution...

Our brains are trained to overlook the word OF.

If you saw all 6 Fs right away, you're a genius.

Most people see only 3 Fs. Some people see 4.

How  
many  
animals  
do you  
see?
